# 56 Santa Monica Regional Consortium for Adult Education

## Fiscal Declaration - Consortium Approved

**Consortium Name:** 56 Santa Monica Regional Consortium for Adult Education

**Funding Channel:** Direct Funded

**Narrative:** The planned AEBG allocation is consistent with the SMRC for Adult Education three-year plan and annual plans as funds will be utilized to continue to support curriculum development, digital literacy, technology, student support services (i.e., academic and career counseling), instruction, and professional development to fulfill SMRC for Adult Education activities in alignment with AEBG objectives. Thus, the SMRC for Adult Education seeks to become the regional hub for literacy, secondary education, and workforce preparation for adult learners. The Consortium will build seamless pathways in its adult education and noncredit programs that respond to workforce education and training needs of the region's adults, in addition to college preparation and transition. Through basic skills and vocational education, training, and support services that align with the SMMUSD/Adult Education Center and SMC Noncredit Programs, and in collaboration with regional resource agencies and industry partners, adult learners will be provided services and academic programs for career development and college preparation. Through short-term vocational and workforce preparation training, adult learners will become prepared for entry-level or higher employment in high demand/high growth industries. To ensure academic pathways are sufficient to meet the needs of the region's adult learners, the Consortium will enhance existing elementary and secondary basic skills services and programs, including: student services, high school diploma, high school equivalency, and ESL/immigrant education. Furthermore, the Consortium will develop new robust offerings in the areas of noncredit workforce preparation, short-term vocational, and older adults assisting children to succeed academically in school. Existing programs will be strengthened by Consortium members' collaborative efforts with support from teachers/faculty in various disciplines/departments. The Consortium will operate in alignment and share performance/outcomes data to better inform instruction and student services in order to ensure accelerated progression through all programs. The Consortium's goals include increased student employment through: assessment, orientation, counseling, and follow-up services provided by student services; development and implementation of noncredit workforce preparation and short-term vocational programs (courses and certificates); and, creation of new career pathways from AEC basic skills and secondary education to SMC noncredit and/or credit programs and ultimately to career. Consortium members will operate with the goal of sustained integration of services between its member organizations.

**Changes:** Santa Monica Regional Consortium will distribute 18-19 COLA, as follows: Santa Monica College District = 50% Santa Monica-Malibu Unified School District = 50%
