Consortium Name: 15 South Bay Adult Education Consortium (El Camino)

Funding Channel: Direct Funded

Narrative: At a public meeting on April 19, 2024, the board made a decision to allocate the additional COLA funding based on the needs of each member and reflective of the carryover of individual members. The mission of the South Bay Education Consortium (SBAEC) continues to be to serve and empower all students to meet their personal, educational and career goals. The consortium has developed short and long term goals; to improve awareness and leverage the resources of the Consortium, to improve the seamlessness of students transition to post-secondary education and the workforce, to maintain, and to Improve student success and retention. The consortium has continued to develop and strengthen the processes implemented in past annual plans. The focus of the SBAEC consortium continues to be creating seamless transitions to support students as they progress on their pathway to higher education and employment. New classes have been designed and staff development has focused on classroom instruction to help prepare students for career and higher education. Career pathways are being created to accelerate students along their path. El Camino College (ECC) and the adult schools have worked cooperatively to create classes and help students transition between programs. Funds were spent on facilities infrastructure and technology for all programs to assist with online registration, testing, classes, and improved instruction. The consortium board meets monthly to review the needs and goals of the entire consortium. The board strives to cooperatively work together to create a comprehensive approach to adult education in our community. Allocations were made based on the percentage of total allocation from 2023-24 SY. Planned allocations are consistent with the annual adult education plan which is based on your CAEP three-year plan. The three year plan goals consist of the following: The consortium will increase awareness and leverage resources by 3% per year. The consortium will increase the seamlessness of students transition to post-secondary education and the workforce by 3% per year. The consortium will increase student program outcomes and retention by 3% per year.
