These categories reflect services provided by the consortium (ADVANCE) and that information has been uploaded into TE but has not been transitioned to LaunchBoard. This has been, and remains an issue, for us given the significant amount of services provided by (and at) the consortium level. We hope that new efforts to revamp and redesign LaunchBoard will allow this issue to be corrected. These consortium services happen outside of the college (fiscal agent) area of responsibility - a unique structure in the State.

Another note is that we don't separate specific services for the AWD participants but, again, based on our unique navigation and support model, are able to wrap supports around each individual thereby reducing, if not eliminating, the need to AWD cohorts - each individual has the resources and pathway plan tailored to their unique circumstances. The hours reported for AWD represents supports specific to addressing their needs and resources with ins most hours being spread out over the goal-related categories (e.g., ASE, ESL, short-term CTE).
