### Corrective Action Plan

We are aware that expenditures fell below target levels for this quarter. However, during the next quarter as we hire more personnel to support the infrastructure for the expanding AEP program for the program and add new programs and courses onsite and offsite, spending will change and increase to meet minimum levels.

### Summary of Activities:

During this last quarter we have focused on the completion of noncredit CTE courses for adult education; created more offsite partnerships for ESL classes; supported marketing and research in the community; continued to support limited employees for student mentoring, supported the summer bridge noncredit program to double participants, supported a noncredit workshop for health careers and continued support faculty in supplies and materials for students enrolled in AEP courses.

### Corrective Action Plan

We are aware that expenditures fell below target levels for this quarter. We continue to focus on creating an infrastructure that will fully support the adult education population. To that extent we are in the process of hiring personnel that will support the outreach and enrollment strategies for current and potential adult education program students. We are also working on creating more noncredit courses in CTE that will support the Strong Workforce initiatives and provide avenues for employment and credit programs.

### Summary of Activities:

During the last quarter we have supported our new Home Remodeling courses for CTE. These classes consisted of drywall, tiling and painting. We also during this last quarter supported the creation of marketing materials for noncredit and the adult education program throughout the community.

### Corrective Action Plan

All monies from this fiscal year have been encumbered but will not be expended in time for the 6/30/19 deadline. We are seeking an extension to ensure that all monies have been allocated and finalized through our PO system.

### Summary of Activities:

The creation of noncredit CTE, equipment purchases for the new programs, and infrastructure activities were the major expenditures for this fiscal year.

Guidance: Yes

### Corrective Action Plan

Approximately 300,000 is encumbered with delivery expected prior to the end of the year. Remaining expenditures will include new and existing CTE program equipment funding, new personnel for infrastructure and student services, adult re-entry, and adults with disabilities.

### Summary of Activities:

LBCC has seen substantial growth in the creation of noncredit courses particularly in the areas of basic skills, ESL, and short-term CTE. In 2018-2019, LBCC saw a 333% increase in course offerings (from 19 to 65), a 467% increase in non-credit programs (from 3 to 17), and a 140% increase in offsite offerings (from 3 to 7) when compared to 2017-2018. Many of the new courses are in CTE; including automotive maintenance, construction, and computer technology. LBCC hired a Admission & Records Specialist, two student services techs that work directly with students on and off campus for application, enrollment, registration, and petitioning processes for awarding certificates. Hiring for an instructional aide to support ESL instruction off-site is underway. LBCC completed 3-year plan with Consortium Partner

### Summary of Activities:

In this first quarter of the Fall 2018 semester LBSA has continued to support our LB community with short term CTE programs. We were able to offer a 6 week custodial class and a 9 week Business machines management class. We also started a low level literacy class at the Mark Twain Library with the goal of transitioning them to our Beginning low ESL Class this Spring. Our multi level ESL class at our community partners site has been going strong serving a group of older adults who we will also look to transition over to the LBSA campus this Spring. Both our CNA and Animal care programs are full and going well. We are hopeful that we will be able to continue these offerings in the future.

### Summary of Activities:

Long Beach School for Adults has been able to continue to offer our short term CTE classes , but starting second semester 2019 we are having to charge for each of the CTE classes due to budgetary constraints. We continue to fill our High School Diploma , HiSET preparation classes and ESL Classes free of charge. Our first semester in 18 - 19 went very well, showing increases in our numbers of students finishing their HS Diploma and increases in the number of students receiving their HS Equivalency certificates. With a full time data tech in place we have made gains in collecting our Casas data and have helped our staff to understand the importance post testing all students. At this point we can not grow anymore without additional funds.

### Summary of Activities:

Long Beach School for Adults worked very hard this year to offer as many classes as possible for our community. Along with our regular classes we were able to hold 2 Custodial classes and 2 Computer application classes one each semester. We were also able to hold beginning and intermediate level Computer classes for our ESL students each semester which was very well received. LBSA will be moving their morning and afternoon programs over to the west side of Long Beach for the 19-20 school year. We will be taking over the old Reid HS campus right behind Carrillo High School. This area has a dense population of adults that will benefit from our services. At least 13% of the population do not have a High School Diploma and 38% or more of the population do not speak English. Our Evening program will remain at the Willow site, offering ESL classes, High School Diploma, HiSET Prep, HiSET testing and Animal Care.
