Carryover Threshold

Input a percentage of carryover that your consortium agrees will be considered an excessive amount.

Should a member, or members, exceed this carryover percentage upon certification of their Q4 report, they will be flagged as non-compliant with the carryover legislation (EC 84914). One year of non-compliance does not carry a penalty. However, should the same member, or members, have two consecutive years of non-compliance the consortium may agree, by majority vote, to reallocate an amount that does not exceed the carryover to other members.

A consortium does have the ability to opt-out. To do so, simply toggle the carryover threshold button to the off position.

LARAEC Board has approved the following bylaw language concerning this area:

XII.G. With respect to EC84901, the LARAEC Executive Board will annually review member-district carryover funds and determine if an excessive carryover threshold needs to be implemented. The carryover threshold is included as part of the annual CFAD approval process and the current status is indicated in NOVA. If determined that an excessive carryover threshold should be implemented, LARAEC member districts have two years to meet the threshold, or the member-district may have all or part of the carryover amount redistributed to other member-districts. In alignment with EC84901, reductions based on carryover do not change base allocations for the following year. 17. Please explain how the consortium will monitor and administer carryover funds. What is the consortium's technical assistance and reasonable intervention process? What additional bylaws do you have that govern carryover? *

Member districts with excessive carryover will be allowed an opportunity to provide a plan for spending down the carryover, justification for carryover, and any requests for technical assistance. As allowable, the board will review plans, provide or recommend technical assistance, and determine further actions. When a member-district has had excessive carryover for two consecutive years, the LARAEC Board will consider the specific circumstances, submitted plans, and needs of the consortium and students when making determinations about any reallocation of carryover funds. The LARAEC board has agreed to address excessive carryover on a case-by-case basis rather than a blanket policy

If determined that an excessive carryover threshold should be implemented, LARAEC member districts have two years to meet the threshold, or the member-district may have all or part of the carryover amount redistributed to other member-districts. In alignment with EC84901, reductions based on carryover do not change base allocations for the following year.
