## 34 Mt. San Antonio Regional Consortium for Adult Education

### Allocation Amendment Summary

#### Fiscal Declaration

The Fiscal Declaration information in this section has been provided as a courtesy. It has not been changed since CFAD has been approved by the Member Representatives.

**Consortium Name:** 34 Mt. San Antonio Regional Consortium for Adult Education

**Funding Channel:** Direct Funded

**Justification:** Not Complete

**Narrative:** The Mt. SAC Regional Consortium for Adult Education approved the 2019-22 Three Year Plan in June 2019. Major goals and objectives include the co-location of Americas Job Center (AJCC) offices at member sites, expanding integrated transition counseling across the adult school and college programs and the establishment of a data tracking process for transitions. These goals are in addition to the provision of education programs and services for the mandated California Adult Education Program (CAEP) populations. Prior to the month of March 2020, members were making expected progress for the current three year and annual plans. In mid-March, all member districts and the college shut down as directed by the statewide COVID-19 virus response mandate. Member school districts were in progress on transitioning to distance/online learning structure during the month of April 2020. Mt. SAC School of Continuing Education fully transitioned to online education programs as of March 30, 2020. The effects of this unprecedented event on student attendance, participation, and outcomes are yet to be determined. However, member schools are focused on retaining current students and recruiting new adult learners. Member allocations are in line with the objectives and consortium Three Year Plan. An example is that the Consortium recently approved the hiring of a dedicated counselor and data specialist to address the regional goals. The counselor will be responsible for connecting with member support staff and students in promoting adult learners to post-secondary institutions and employment. This includes interaction and engagement with AJCCs. Further, the data specialist will also interact with all member schools to focus not only on outcome data but to ensure that transition data can be identified. Other expenditures reflect consortium goals including professional development which has expanded to include more specialized trainings. And finally, within the Three Year Plan, providing professional development to faculty and staff as well as expanded services to adults with disabilities is noted to be a priority of the consortium. Expenses and budgets should also reflect this expanded emphasis.

**Changes:** No Changes
