Corrective Action Plan

As a result of Winter Break and Spring Break, there were 3 weeks that courses were not in session which resulted in a short fall in instructional salaries and benefits expenditures. Current data suggests we are on track with our expenditures for fourth quarter since we have expenditures totaling 57.58% of our total budget as of May 26, 2021.

Corrective Action Plan

We did not spend our budgeted amount in the 5000 due to delays in our purchasing department when renewing annual software licenses and will address this prior to the end of the third quarter. Due to changes in classes due to COVID, we have delayed purchase of classroom materials (4000) to learn what teachers will need as they change how they meet the needs of their students.

Corrective Action Plan

There 2 factors that has impacted our planned budget spending in the 4000 and 5000 categories. #1 We transitioned to 100% distance learning due to COVID and have not been using the projected amount of supplies and materials (ex. our construction CTE course projected cost is \$60,000 and has placed on hold temporarily). #2 Due to staff at both the school site and district working remotely, the timeline for processing orders is extended causing delays in orders and expenditures that were planned as part of the budget in August.

Summary of Activities:

5000 - Our CTE class that is funded out of this category was suspended for much of 2019-2020 and all of 2020-2021 due to COVID 19 precautions. Our budget was higher due to not spending in '19-'20 and not being able to run this class in '20-'21. This combined with the reduction in professional development costs as all conferences were either virtual or canceled for the year is the reason we did not hit the targeted projection for expenditures. 4000 - Working with our fiscal department and our CDE consultant in preparation for an upcoming FPM we found some accounting errors that were made in previous years where the budget transfers did not occur as they were expected. Reviewing our data from previous year for both CAEP, WIOA and other funding sources it was discovered that an adjustment needed to be made in NOVA to correct the amount of funds expended that were under reported. The adjustment amount was added to Q4 in the 4000 category based on data from our Financial 2000 documents.
